

The University of Georgia
D. B. Warnell School of Forest Resources
Student Assessment of Instruction

The Warnell School is committed to providing the highest quality instructional program possible. To meet that objective, we continuously evaluate the effectiveness of our course offerings. Student perceptions are an important and irreplaceable component of this assessment. For that reason, we solicit your opinion regarding the experience you have had in the class in which you presently sit.

Your responses will be provided to the course instructor and to the School's Dean and Associate Dean for Academic Affairs about 3-4 weeks after the end of the semester. All responses will be forwarded anonymously. To mask authorship, written comments will be typed before transmittal to the instructor and deans.

Using the scale below please enter, on the accompanying **Exam System II™ form**, your opinion about the truth of the following statements with respect to the class in question. We encourage you to elaborate on your responses by entering written remarks on this sheet, beneath each of the statements. Comments are most helpful if they are specific and constructive. Solutions for identified problems are especially beneficial.

Thank you for helping us to provide a quality instructional program by sharing your thoughts on this course.
