Notes:

- Use touch panel to turn on/off projectors and lower screens (do not use remotes).
- Turn on computer and monitor with power buttons on those components.
- Select device (laptop VGA/HDMI, desktop, DVD, document camera) on touch panel. Cables on back right of podium.
- Audio adjusts on computer and on touch panel under "audio."
- Two screens can show the same image, or two different images or devices.
- Presenter mode on desktop will only show audience view on **one** projector.
- Lift the document camera arm to activate and choose device on touch panel.
- If you need a microphone, it is on the upper left in the cabinet below.
- 2ft ethernet cables available in small wooden cabinet on south wall.
- Classroom supplies or cabinet key: Ashley McCullough, room 2-225a.
