Notes:

- The computer is located on the upper left rear of the display.
- Turn on computer and monitor with power buttons on those components.
- USB inputs for flash drives are near the power button on the computer.
- HDMI/VGA laptops input to monitor with included HDMI cable and appropriate adapter. Interactive features only work using the attached computer.
- Next to the power button on the large monitor front is the input button. Use to select various laptop inputs. The attached computer is HDMI1.
- This monitor is interactive, you can draw on it, edit or move through PPT slides.
- The camera is a USB webcam and can be used with Skype, GoToMeeting, Zoom or other webconferencing applications.
- Classroom supplies: Ashley McCullough, room 2-225a
