Spring Graduation

Friday, May 8, 2020

In these unprecedented times, it's important to find the silver linings. You, our Class of 2020 graduates, are one such bright spot.

Now, it's your time to shine.

I'm sorry that we can't be together on this day, to celebrate your achievements in person. This semester has been one for the record books, but I hope that the off-campus learning will simply serve as a catalyst to bring you back to UGA sooner rather than later. We all look forward to a day when we can gather for a tailgate or Warnell Weekend and celebrate in person.

But I don't want the last few weeks of your last semester at Warnell to overshadow the bulk of the time you spent in our classrooms, labs, and forests. You bonded with your classmates over van trips, campfires, and late nights in the lab. You organized club activities and spent hours walking through Whitehall Forest—sometimes in the rain. You were inspired by our natural world, you connected with professionals in your field, and, I hope, graduate from Warnell with a sense of pride and wonder, looking forward to your next adventure.

Wherever your Warnell degree takes you, know that we will always be here for support, guidance, and even a letter of recommendation or two. We have thoroughly enjoyed learning from you and with you, and we hope to see you in the future.

Stay in touch, and go Dawgs!

A handwritten signature in black ink, appearing to read "Julie". The signature is fluid and cursive, with a long horizontal stroke at the end.
